

Notion AI Tool

The AI agent workspace organizer for
Windows.

Windows 10 & 11

First month free

No credit card required

Desktop clutter is costing you hours every week.

Messy files

The average Windows user has 100+ unsorted files on their desktop and in Downloads.

Wasted time

People lose 4–8 hours per week just searching for files and manually organizing folders.

Lost focus

Digital clutter increases stress, reduces focus, and makes it harder to get deep work done.

Existing tools are either too basic (manual cleaners) or too complex (enterprise DMS). Nothing works automatically on Windows.

An AI agent that actually organizes your PC.

Notion AI Tool lives on your Windows desktop, learns how you work, and automatically sorts files, automates tasks, and keeps everything in order — locally and privately.

Saved per week

100%

Local processing

Three steps to a permanently clean desktop.

1

Download & install

Get the Windows installer, run it, and you're done in under two minutes. No account required for the free month.

2

Let the AI scan

Notion AI Tool maps your folders, learns your file patterns, and suggests an organization scheme — all locally.

3

Work while it organizes

Files get sorted, tasks get automated, and distractions get blocked. You just keep working — or take a break.

Everything your desktop should have done already.

Smart File Organization

Automatically sorts documents, downloads, images, and screenshots into the right folders — named the way you'd name them.

Task Automation

Build no-code workflows that open apps, move files, send emails, and run scripts — triggered by a single command.

Focus Assistant

Block distractions, silence notifications, and run deep-work sessions. Get a daily summary of what you accomplished.

Learns Your Habits

The more you use it, the smarter it gets. It remembers how you like things named, filed, and grouped.

Privacy First

All AI processing happens locally on your PC. Your files never leave your computer unless you enable sync.

2-Minute Setup

Download, install, done. No complicated configuration, no onboarding calls, no sales team.

Built for anyone on Windows.

Small Businesses

Keep client files, invoices, and contracts organized without hiring an admin.

Startups

Move fast without the chaos. Small teams stay organized and focused on building.

Enterprise

Standardize file management across departments and free up hours of employee time.

Freelancers

Juggle multiple clients without losing track of a single file or deliverable.

Students

Organize research, readings, and assignments automatically. Stay on top of deadlines.

Everyone

If you use a Windows PC and want less digital clutter, you can try it — free for a month.

PRICING

Simple, honest pricing.

 First month free

\$9.99/month

After your free month. No credit card required to start.

- ✓ Unlimited AI file organization
- ✓ Unlimited automation workflows
- ✓ Focus sessions & distraction blocking
- ✓ Natural-language search
- ✓ Local processing — 100% private
- ✓ Priority email support

Cancel anytime from inside the app. No hidden fees. No contracts.

Why Notion AI Tool wins.

Local AI = Privacy

Unlike cloud-based competitors, all processing happens on the user's machine. Files never leave the PC. This is a massive trust advantage.

Windows-Only Focus

We don't compromise for macOS or Linux. Every feature is built natively for Windows 10 and 11 — better performance, better integration.

Lightweight

Under 1% CPU when idle, ~80 MB installed. Runs quietly in the background without slowing down the PC.

Full Undo History

Every AI action is logged and reversible. Users stay in control — a key differentiator from "black box" automation tools.

Where we're heading next.

Q1 — Team Workspaces

Shared rules and organization schemes for small teams. Centralized admin dashboard.

Q2 — Natural Language Commands

Talk to your PC: "Organize my project folder" or "Find the invoice from last month."

Q3 — Enterprise Deployment

MSI installer, group policy support, and volume licensing for large organizations.

Our goal: become the default AI workspace organizer for every Windows PC in the world.

Let's organize every desktop.

Try Notion AI Tool free for a month. No credit card required.
